

# Lavender Bag

Cut out the templates below using thick card. You only need one per bag.

Lay the template on your fabric and pin in place.

Cut round the outside of the template.

Lay the cut fabric on a larger piece of material, pin in place and sew around the edge, starting from the top right, working round to the top left.

Leave the top open.

Cut off excess fabric and turn right side out and press.

Turn in and press the open top edge.

Stuff the bag with lavender.

Cut a 25cm strip of ribbon, fold in half and place in the centre of the opening.

Sew the opening closed.

Add embellishments if you want.
